

# Project Outline – Crane Park Island Nature Trail

①

**Cluster:** Twickenham, Whitton and Heathfield, East Twickenham and St Margarets, Strawberry Hill

**Amount of NCIL available:** £24,228

**Group:** London Wildlife Trust

**Amount requested:** £7,314

*The exciting nature trail project aims to enhance and improve an existing trail on Crane Park island Nature Reserve. The trail will comprise of a numbered oak post, linked to an informative map, around our wheelchair friendly path. Each post will have an interactive tactile panel that children can make rubbings from. Informing them about the fascinating history and wildlife of the area..*

*In conjunction with the trail we will produce a fun activity sheet that families will be able to use when visiting the reserve, incorporating their rubbings. This will be available both electronically and from the Shot Tower. The trail will be open at all times but will also be used in conjunction with organised guided walks and school visits. We will organise two events for families and other members of the public to launch the new trail. In addition we will undertake improvements to our pond dipping platform.*

## Project Outline – Whitton Village Green

②

**Cluster:** Twickenham, East Twickenham and St Margarets, Whitton and Heathfield, Strawberry Hill

**Amount of NCIL available:** £24,228

**Group:** SS Philip and James Church

**Amount requested:** £15,428

*To provide a Village Green for the whole Whitton community, by transforming the open green space around Whitton Church into a valuable resource for local residents of all ages*

## Project Outline – Community Kitchen Project

③

**Cluster:** Twickenham, East Twickenham and St Margarets, Whitton and Heathfield, Strawberry Hill

**Amount of NCIL available:** £24,228

**Group:** East Twickenham Neighbourhood Association

**Amount requested:** £24,000

*ETNA's Community Kitchen Project aims to improve the facilities for the local community by building a new extension, incorporating a kitchen and a café area. This will provide extra space for more meetings, events and activities to be hosted for local residents, for example: cooking classes, community café, and lunch clubs. The new kitchen will also allow current and new users to meet and socialise, fitting with our goal of reducing isolation in TW1. In addition, the changes will include disability access to the front and rear of the main Centre making ETNA truly accessible to all.*
