

# **DRAFT LOCAL VALIDATION CHECKLIST FOR ALL APPLICATIONS**

**Draft for Public Consultation 11 December 2025 to 15 January 2026**

The London Borough of Richmond upon Thames Local Validation Checklist has been prepared in accordance with the Town & Country Planning (Development Management Procedure) (England) Order 2015 and the Town and Country Planning Act 1990 (as amended).

**Consultation Note:** This draft LVC cross-references Supplementary Planning Documents (SPDs) that have been updated and are being consulted on concurrently ([Draft SPDs](#)), as well as new SPDs that are being prepared and will be consulted on in the near future.

    Appendix 3 - Flood Zones, Restrictions, and Requirements ..... 42

## Introduction

### Preparing Supporting Information

- The validation checklist outlines the information required for your planning application to be validated. Applications that are incomplete, or contain poor-quality information, will be considered invalid and will not be processed until all necessary requirements have been provided. If the application is deemed invalid upon receipt, the Council will notify you with reasons and a deadline for providing outstanding information. Failure to respond by the deadline will result in the application being returned to you, and you'll need to submit a new one.
- The Council offers a [pre-application service](#) through which you can discuss your proposals, including validation requirements, with a planning officer and/or receive written advice. Where a number of pre-application meetings are likely to be necessary it may be preferable for a Planning Performance Agreement (PPA) to be pursued.
- Where information required for validation is contained within or combined with another document (e.g. Design and Access Statement), this must be clearly signposted at the point of submission, stating the document name and specific section or page where the information can be found. Alternatively, the information should be provided as a separate standalone document.
- Where relevant or deemed necessary, submission documents should include written confirmation that the applicant/agent agrees to pay any relevant fees for an expert independent assessment of submitted evidence (e.g. financial viability assessments).

**Note:** The information requirements outlined in this document do not prevent the Council from requesting additional information if it is deemed necessary during the determination of the application.

### Submitting Applications Online

- The easiest way to submit your application is to use the [Planning Portal](#) website, where you can make your application and payment online. The Council's [website](#) sets out more details.
- Submitted electronic files must meet [our requirements](#). In particular:
  - Documents should be submitted in PDF format, unless the validation checklist indicates alternative formats will be accepted (e.g. Excel spreadsheet proformas).
  - Individual files should be kept under 10mb. If necessary, break large files into numbered sections to reduce the file size. Please do not submit .EXE files or use ZIP utilities to condense file sizes.
  - Files should be uploaded in the following order:
    1. Application form and certificates
    2. Site Location plan
    3. Block Plan
    4. Proposed plans (site plan, floor plans, elevations)
    5. Existing plans (site plan, floor plans, elevations)
    6. Supporting statements
    7. Reports and survey

### **Development Plan**

- At the time of publication, the statutory Development Plan for the London Borough of Richmond upon Thames comprises the [Local Plan](#) (2025), the [London Plan](#) (2021), the [West London Waste Plan](#) (2015), and the [Ham and Petersham Neighbourhood Plan \(HPNP\)](#) (2019). Policies in the latter apply only within its designated Neighbourhood Area. Some policy designations are available to view spatially via the Local Plan [interactive map](#).

### **Greater London Authority (GLA) Data Validation Requirements**

- As part of its Planning London Datahub project, the GLA requires additional data in accordance with the GLA Planning Data Standard. This information is integrated into the application forms on the Planning Portal. Find out more about the [Planning London Datahub](#), including details specific to each application type.

### **Major, Minor and Other Planning Applications**

- **Major development** is defined as any of the following:
  1. Development providing 10 or more dwellings or, where the number of dwellings is not known, the site area is 0.5 hectares or more
  2. Development providing a building or buildings where the floor space to be created by the development will be 1,000 square metres or more
  3. Development on a site of 1 hectare or more
  4. The winning and working of minerals or the use of land for mineral-working deposits
  5. Waste development
- **Minor development** is defined as applications which do not meet the criteria for Major development or Other development.
  1. Residential development of between one and nine dwellings
  2. Development where the floorspace is less than 1,000 square metres
  3. Development on sites less than one hectare
- **Other development** includes householder applications, changes of use, advertisements, and Listed Building Consent.

### **Outline Planning Applications**

While the checklist will help identify required documents, the Local Planning Authority (LPA) acknowledges that the information needed at outline application stage will vary depending on the reserved matters. Applicants are therefore encouraged to seek advice from Development Management prior to submission. Note that outline planning applications will generally not be accepted within Conservation Areas.

## Householder Planning Applications

- If you are submitting an application to alter or extend an individual house (excluding flats), the relevant validation requirements are primarily set out in Part 1 – National Validation Requirements. Depending on the nature of the proposal and its location (for example, a Listed Building within a Conservation Area), additional requirements in Part 2 – Local Validation Requirements may also apply.
- The **‘Householder Quick Guide’** below sets out when validation requirements are always required  , or could be required  for householder applications (see detailed requirements/thresholds).

Part 1 – National Requirements	
<a href="#">Application Form</a>	
<a href="#">Design &amp; Access Statement</a>	
<a href="#">Fee</a>	
<a href="#">Ownership Certificate / Agricultural Holdings Certificate</a>	
<a href="#">Plans (National Requirements)</a>	

Part 2 – Local Requirements	
<a href="#">Plans (Local Requirements)</a>	
<a href="#">Community Infrastructure Levy Form 1 – Additional Information</a>	
<a href="#">Heritage Statement</a>	
<a href="#">Internal (Room by Room) and External Schedule of Works</a>	
<a href="#">Structural Impact Assessment</a>	
<a href="#">Archaeological Assessment</a>	
<a href="#">Construction Management Plan</a>	
<a href="#">Parking Layouts &amp; Turning Circles</a>	
<a href="#">Fire Safety Strategy / Reasonable Exception Statement</a>	
<a href="#">Flood Risk Assessment</a>	
<a href="#">Drainage Strategy incorporating SuDS</a>	

<a href="#">Basement Assessment</a>	
<a href="#">Arboricultural Impact Assessment including Tree Survey and Tree Constraints Plan/Statement</a>	
<a href="#">Draft Tree Protection Plan</a>	
<a href="#">Draft Arboricultural Method Statement</a>	
<a href="#">Ecological Reports &amp; Surveys</a>	
<a href="#">Green Roof/Walls Details</a>	
<a href="#">Open Land Assessment</a>	
<a href="#">Lighting Assessment</a>	
<a href="#">Noise Assessment/Acoustic Design Statement</a>	
<a href="#">Daylight, Sunlight and Overshadowing Assessment</a>	
<a href="#">Contaminated Land Assessment</a>	
<a href="#">Statement on use of residential outbuildings / granny annexes</a>	

### Permission in Principle (PiP)

The Permission in Principle consent route is a way of gaining planning permission for housing-led development. This route separates the principle consideration of matters from the technical detail of the development. The two stages are set out below, along with validation requirements:

#### **Stage 1: Permission in principle**

- a) Completed application form, signed and dated.
  - b) Site Location Plan which identifies the land to which the application relates, drawn to an identified scale (1:1250 or 1:2500), showing the direction of North.
  - c) Correct application fee.
- Additional requirements may apply where compulsory pre-application consultation is required by virtue of [Section 61W\(1\)](#) of the Town and Country Planning Act 1990.

#### **Stage 2: Technical details consent**

- a) The requirements for a valid technical details consent application are the same as those for an application for full planning permission.
- b) Any additional information identified on the [Brownfield Land Register](#).

### Contact

Contact details for various Council services can be found on the [Council's website](#). For general planning enquiries (not [pre-application advice](#)):

80. [Takeaway Statement](#)
81. [Evening Economy and Food & Drink Management Plan](#)
82. [Statement on use of residential outbuildings/granny annexes](#)
83. [Telecommunications Statement](#)

## Application Inventory

REQUIREMENT	THRESHOLD	WHAT IS REQUIRED	GUIDANCE
<b>1. Application Inventory</b> 	All applications (optional for householder applications).	<ul style="list-style-type: none"> <li>Applicants are encouraged to submit an <b>Application Inventory</b> (which can form part of a short cover letter or use the Council's Application Inventory Template) that demonstrates which validation requirements required by this checklist have been submitted. It will also assist the LPA (and members of the public) to find information needed to assess or comment on an application, especially where some validation requirements have been combined into documents or are called something different.</li> <li>Householder planning applications are not required to provide an Application Inventory, but if the application is more complex and contains several documents it may be useful.</li> </ul>	LBRuT Application Inventory Template (forthcoming)

## Part I – National Requirements

NATIONAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>2. Application Form</b> 	All applications.	<ul style="list-style-type: none"> <li>Most planning forms can be completed online at the <a href="#">Planning Portal</a>. See the Council's <a href="#">planning forms webpage</a> for guidance.</li> </ul>	<a href="#">LBRuT – make a planning application</a>
<b>3. Design &amp; Access Statement (DAS)</b> 	<ol style="list-style-type: none"> <li>All major development.</li> <li>Applications for development (including householders) in a Conservation Area or World Heritage Site, where the proposed development consists of:               <ul style="list-style-type: none"> <li>one or more dwellings; or</li> <li>a building or buildings with a floor space of 100 sqm or more.</li> </ul> </li> <li>Applications for listed building consent.</li> </ol>	<ul style="list-style-type: none"> <li>Design and Access Statements (DAS) should be proportionate to the scale and type of development. They must clearly document the design evolution and rationale behind the proposal. They must include an analysis of the site constraints and wider surrounding context, opportunities and an assessment of how the context has influenced the design. Where relevant they must demonstrate how the proposal aligns to the Conservation Area Appraisals as well as the design guidance for the relevant character area as specified within the <a href="#">Urban Design Study</a> and the <a href="#">Village Planning Guidance SPDs</a>.</li> <li><a href="#">Planning Practice Guidance (PPG)</a> sets out further guidance on what should be included in a DAS.</li> </ul>	Local Plan Policy 44  <a href="#">LBRuT guidance</a>  <a href="#">PPG - Design &amp; Access Statement</a>  <a href="#">Design Quality SPD</a>  <a href="#">National Design Guide</a>

NATIONAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
4. <b>Fee</b> 	All applications.	<ul style="list-style-type: none"> <li>See the Council's <a href="#">planning application fees</a> webpage for guidance on fees.</li> </ul>	<a href="#">LBRuT – planning fees</a>
5. <b>Ownership Certificate / Agricultural Holdings Certificate</b> 	All applications.	<ul style="list-style-type: none"> <li>Submit an Ownership Certificate (A, B, C, or D) as appropriate, alongside the Agricultural Holdings Certificate (see <a href="#">Planning Practice Guidance</a>).</li> <li>Where Ownership Certificate B, C or D has been completed, the correct Notice must be given and served on the owner(s) and/or published in a local newspaper:               <ul style="list-style-type: none"> <li><a href="#">Notice 1</a>: to be printed and served on individuals if Certificate B or C is completed.</li> <li><a href="#">Notice 2</a>: for publication in local newspaper if Certificate C or D is completed.</li> </ul> </li> </ul>	<a href="#">PPG - Making a planning application</a>
6. <b>Plans – National Requirements</b> 	All applications.	<ul style="list-style-type: none"> <li>An application for planning permission must be accompanied by:               <ol style="list-style-type: none"> <li>a plan which identifies the land to which the application relates;</li> <li>any other plans, drawings and information necessary to describe the development which is the subject of the application.</li> </ol> </li> <li>Plans and drawings must be drawn to an identified scale. Plans, must show the direction of North.</li> </ul>	<a href="#">PPG - Making a planning application</a>
7. <b>Biodiversity Net Gain (BNG) Statement &amp; Statutory Biodiversity Metric</b>	<p>All applications.</p> <p><b>Note:</b> <i>even if you believe your development qualifies for an exemption from BNG, you must still explain the reason for the exemption and provide any supporting evidence. See the government's <a href="#">list of exemptions</a> to check if the development is exempt.</i></p>	<ul style="list-style-type: none"> <li>You should complete the template BNG statement available on the <a href="#">Council's website</a> to show how the development has considered BNG.</li> <li>The minimum information that you must submit is set out in the <a href="#">national Biodiversity Net Gain guidance</a>. Some of these requirements are also included in the standard application form available on the <a href="#">Planning Portal</a>.</li> <li>The requirements also include a completed <a href="#">Statutory Biodiversity Metric</a>. The metric should be completed by a competent person, such as a qualified ecologist, with specialist knowledge of habitats and their assessment. You can find an ecology consultant on the <a href="#">CIEEM website</a>.</li> <li>For <b>small sites</b> (i.e. developments that do not meet the definition of major development), applicants may use the <a href="#">Small Sites Metric (SSM)</a> instead of the Statutory Biodiversity Metric, if the development proposal meets the criteria set out in the Small Sites Metric <a href="#">user guide</a>.</li> </ul>	<p><a href="#">LBRuT BNG webpages</a> (including BNG statement template)</p> <p><a href="#">National Guidance: Biodiversity Net Gain</a></p> <p><a href="#">BNG – exempt developments</a></p> <p><a href="#">Statutory biodiversity metric tools and guides</a></p>

NATIONAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>8. Environmental Statement</b>	Developments listed in Schedule 1 of the Town and Country Planning (Environmental Impact Assessment) Regulations 2017, or for developments in Schedule 2 that are deemed EIA development.	<ul style="list-style-type: none"> <li>When requested through the formal Environmental Impact Assessment (EIA) screening opinion process, the Local Planning Authority (LPA) will determine whether a proposed development requires an Environmental Statement under the terms of the EIA Regulations 2017.</li> <li>Where an Environmental Statement is required, applicants should seek a scoping opinion to agree the scope and level of detail of the assessment. The Environmental Statement submitted with the planning application, which reports on the findings of the EIA, must meet the requirements set out in Schedule 4 of the Regulations.</li> </ul>	<a href="#">National EIA legislation</a>  <a href="#">PPG - Environmental Impact Assessment</a>  <a href="#">LBRuT - Environmental Impact Assessment</a>

## Part 2 – Local Requirements

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>9. Plans – Local Requirements</b> 	All applications.	<ul style="list-style-type: none"> <li>Site Location Plan (scale 1:1250, or 1:2500) showing the proposed development outlined in red and any adjoining land owned by the applicant outlined in blue.</li> <li>Block Plan (scale 1:100, 1:200 or 1:500) showing the size and position of existing and proposed buildings relative to boundaries, other structures within the site, and the width and position of adjacent streets. A block plan should include adjoining buildings, roads, footpaths, public rights of way, trees, hard surfacing, and boundary treatments <b>unless</b> these would not influence or be affected by the proposed development.</li> <li>Existing and Proposed Plans are required for: <ul style="list-style-type: none"> <li>Floor plans and elevations (scale 1:50 or 1:100)</li> <li>Site sections and levels (scale 1:50 or 1:100)</li> <li>Roof plans, including plant, lift overruns, and green roofs where applicable</li> </ul> </li> <li>Demolition plans showing parts of the building to be fully or partially removed (supporting photographs encouraged, especially for historic buildings).</li> <li>For Listed Buildings, Buildings of Townscape Merit, or Conservation Areas, detailed plans (scale not less than 1:20) must show new doors, windows, shop fronts, panelling, fireplaces, plaster mouldings, and other decorative features.</li> <li>All plans must: <ul style="list-style-type: none"> <li>Indicate key metric dimensions (width, height, length)</li> <li>Be to a recognised scale (avoiding “Do Not Scale” notes) and show North</li> </ul> </li> </ul>	

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
		<ul style="list-style-type: none"> <li>- Include drawing titles, numbers, and a full drawing list</li> <li>- Where revisions are required, drawings should retain the same drawing numbers, with updated title blocks (e.g. Rev. A → Rev. B) and include a revision note explaining the changes.</li> <li>- Clearly show refuse and recycling storage</li> <li>• Applicants should provide floorspace figures broken down by use class (see <a href="#">Planning Portal guidance</a> on the <a href="#">Use Classes Order</a>).</li> <li>• Recent, date-stamped photographs are encouraged to support assessment. These must not include confidential or sensitive content.</li> </ul>	
<b>10. Planning Statement</b>	<p>All major development.</p> <p><i>Encouraged for other development to cover issues not addressed by the Design &amp; Access Statement.</i></p>	<ul style="list-style-type: none"> <li>• Should identify the context and need for the development and include an assessment of how it accords with policies in the Development Plan.</li> <li>• The information provided should be proportionate to the scale of the proposal. It may be possible to cover some validation requirements in a short statement or paragraph within the Planning Statement</li> </ul>	
<b>11. Statement of Community Involvement (SCI) / Community Engagement Report</b>	All major development.	<ul style="list-style-type: none"> <li>• The SCI must report factually on the engagement approach and outcomes, including information as set out at section 6.5 of <a href="#">Raising the Bar guidance</a>. Records of pre-application advice and/or outcomes from Design Review Panels may be submitted as part of the planning application, but should not form the basis of the SCI.</li> <li>• The SCI should align with the applicant's engagement strategy (where one was reviewed and agreed with the Council at the pre-application stage).</li> </ul>	<p><a href="#">Raising the Bar: Early Community Engagement Guidance</a></p> <p><a href="#">LBRuT SCI</a></p>
<b>12. Community Infrastructure Levy Form I Additional Information</b> 	All applications (including Lawful Development Certificates and Prior Approval applications).	<ul style="list-style-type: none"> <li>• Required to determine CIL liability for a development. Floorspace calculations must be accurate. The CIL Additional Information form and guidance notes can be found on the <a href="#">Planning Portal website</a>.</li> <li>• Further CIL guidance can be found on the <a href="#">Council's website</a>.</li> </ul>	<p><a href="#">Community Infrastructure Levy - LBRuT website</a></p>
<b>13. Heritage Statement</b> 	<p>All applications affecting a designated* and/or non-designated** heritage asset and or their setting, including:</p> <p><i>*Designated Heritage Assets:</i></p>	<ul style="list-style-type: none"> <li>• Development proposals should demonstrate how the proposal complies with the relevant <a href="#">Conservation Area Appraisals</a>, as well as Village Planning Guidance SPDs, and any other relevant adopted SPDs/SPGs, and as a minimum the Historic Environment Record should be reviewed and referenced.</li> <li>• The level of detail should be proportionate to the heritage assets importance and no more than is sufficient to understand the potential impact of the proposal on</li> </ul>	<p>Local Plan Policy 29, Policy 30</p> <p><a href="#">Guidance on Heritage Statements</a></p>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
	<ul style="list-style-type: none"> <li>Listed Buildings</li> <li>Conservation Areas</li> <li>World Heritage Sites</li> <li>Registered Parks and Gardens</li> <li>Scheduled Monuments</li> </ul> <p><i>**Non-designated Heritage Assets:</i></p> <ul style="list-style-type: none"> <li>Buildings of Townscape Merit (designated by the Council)</li> <li>Archaeological Priority Areas</li> </ul>	<p>their significance. Therefore, the scope and degree of detail necessary in a Heritage Statement will vary, but should always include:</p> <ol style="list-style-type: none"> <li>1. Details of all heritage assets affected;</li> <li>2. A summary of the findings from consultation with the relevant Historic Environment Record (HER);</li> <li>3. A summary of the significance or 'special interest' of the asset(s);</li> <li>4. A summary of the proposals;</li> <li>5. A statement regarding how the proposals will impact on the significance of the asset(s);</li> <li>6. Justification of the impact of the proposal, including details of how the proposal has been designed to conserve/minimise harm to the special interest of the asset and any heritage benefits which may outweigh the harm caused (mitigation).</li> </ol> <ul style="list-style-type: none"> <li>• Details about Heritage Assets and Article 4 Directions relating to conservation can be found on the Council's <a href="#">interactive mapping</a>, and the <a href="#">Conservation &amp; Urban Design webpages on the Council's website</a>.</li> </ul>	<p><a href="#">Conservation Area Appraisals</a></p> <p><a href="#">Village Planning Guidance SPDs</a></p> <p><a href="#">Design Quality SPD</a></p> <p><a href="#">LBRuT Public Space Design Guide</a></p> <p><a href="#">House Extensions and External Alterations SPD</a></p>
<b>14. Internal (Room by Room) and/or External Schedule of Works</b> 	All development involving internal and/or external works to a Listed Building.	<ul style="list-style-type: none"> <li>• Applicants are encouraged to provide these schedules separately from other validation requirements.</li> </ul>	Local Plan Policy 29
<b>15. Structural Impact Assessment</b> 	All applications proposing the addition of basements to, or adjacent to, Listed Buildings; the lowering of floor levels within Listed Buildings; or any structural alterations and repairs to Listed Buildings.	<ul style="list-style-type: none"> <li>• Must detail the impact of the proposed development on the structure of the Listed Building(s), including structural engineering information explaining the proposed means of support and any loss of historic fabric, particularly in relation to proposed or altered basements.</li> <li>• The assessment should include written confirmation that the applicants will pay for the structural assessment to be independently assessed if deemed necessary by the Council.</li> </ul>	Local Plan Policy 29, Policy 54
<b>16. Structural Report</b>	All applications proposing the demolition of a Building of Townscape Merit, unless the demolition is not for structural reasons.	<ul style="list-style-type: none"> <li>• Should include a structural survey, an analysis of the character and appearance of the building or structure, and justification for the proposed demolition in structural terms.</li> <li>• The report should written confirmation that the applicants will pay for the structural report to be independently assessed if deemed necessary by the Council.</li> </ul>	Local Plan Policy 30, Policy 54

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>17. Photographs and Photomontages</b>	<ol style="list-style-type: none"> <li>1. Major development which include new built form.</li> <li>2. Developments that could impact upon protected views and vistas.</li> </ol>	<ul style="list-style-type: none"> <li>• Photographs, photomontages, and CGI are useful for illustrating development impact and context, but must not replace accurate, metric-scaled drawings and plans required for assessment.</li> <li>• Viewpoints from specific locations may also be required and should be agreed with officers during the pre-application stage.</li> </ul>	<p>Local Plan Policy 31</p> <p><b>Local Views SPD (forthcoming)</b></p>
<b>18. Streetscape drawing(s)</b>	Infill developments.	<ul style="list-style-type: none"> <li>• Streetscape drawings should show, as a minimum, the two adjacent buildings.</li> </ul>	Local Plan Policy 15, Policy 16, Policy 28
<b>19. Townscape and Visual Impact Assessment (TVIA)</b>	<ol style="list-style-type: none"> <li>1. All major development.</li> <li>2. Proposals for tall buildings – defined in the Local Plan (2025) as 7+ storeys or 21m+ in height (from ground level to top), whichever is lower.</li> <li>3. Any development with the potential to harm the quality of the designated views and vistas.</li> </ol> <p><i>Local views and vistas are identified in the forthcoming Local Views SPD and on the Council's <a href="#">interactive Policies Map</a>.</i></p>	<ul style="list-style-type: none"> <li>• Applicants will be required to provide Accurate Visual Representations (AVRs) of the impact on views of proposals from agreed viewpoints, which will form part of the Townscape and Heritage Impact Analysis.</li> <li>• Where relevant, TVIAs should also consider the potential for development to harm the appreciation of the Outstanding Universal Value (OUV) of the Royal Botanic Gardens, Kew World Heritage Site.</li> <li>• For proposals involving tall buildings, the TVIA should form part of a broader <b>Tall Buildings Impact Assessment</b>, which may be accompanied by other supporting documents (e.g. wind assessment) to enable the application to be considered against the impacts set out in Policy D9 of the London Plan (2021), including: <ul style="list-style-type: none"> <li>○ Visual Impacts</li> <li>○ Functional Impacts</li> <li>○ Environmental Impacts (including microclimate)</li> <li>○ Cumulative Impacts</li> </ul> </li> <li>• Tall building proposals or development with the potential to harm the quality of protected views and vistas should be supported by graphic 3D modelling compatible with VU.CITY, including submission of FBX file(s). Precise requirements for 3D modelling should be discussed at pre-application stage.</li> </ul>	<p>Local Plan Policy 31, Policy 44, Policy 45</p> <p><b>Local Views SPD (forthcoming)</b></p> <p><a href="#">London View Management Framework</a></p> <p><a href="#">LBRuT Urban Design Study 2023</a></p>
<b>20. Archaeological Assessment</b> 	<ol style="list-style-type: none"> <li>1. All major development in an Archaeological Priority Area (APA).</li> <li>2. All sites greater than 0.5 hectares, whether in an APA or not.</li> <li>3. <u>Some</u> non-major development in APAs (e.g.</li> </ol>	<ul style="list-style-type: none"> <li>• Use the Council's <a href="#">interactive Local Plan Policies Map</a> to identify APAs (tiers which indicate archaeological significance and potential of an area).</li> <li>• A desk-based Archaeological Assessment should be prepared by a suitably qualified individual or organisation, using existing information to assess the archaeological significance of the site and the potential impact of the proposed development on any surviving monuments or remains. On more archaeologically important sites, preliminary archaeological site investigations may be required prior to the submission of a planning application.</li> </ul>	<p>Local Plan Policy 33</p> <p><a href="#">Greater London Archaeology Advisory Service (GLAAS)</a></p>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
	development of domestic basements and other proposals involving groundworks or demolition – see <a href="#">GLAAS consultation criteria</a> for guidance).	<ul style="list-style-type: none"> <li>The Greater London Archaeology Advisory Service (GLAAS) are the Council's consultee on archaeological matters. The <a href="#">GLAAS website</a> sets out when LPAs are requested to consult GLAAS, including smaller-scale development and areas outside APAs.</li> <li>For non-major development, in some cases, an archaeological assessment may be warranted (suggested in the more sensitive Tier 1 and Tier 2 APAs); in others, there may be no archaeological interest, the type or scale of development may not justify one, or existing information may indicate that a planning condition would provide sufficient safeguard. <a href="#">Pre-application consultation with GLAAS</a> is strongly encouraged if there is any uncertainty as to whether an archaeological assessment is required.</li> </ul>	<a href="#">Archaeological Priority Area Maps</a>  <a href="#">GLAAS guidelines for Archaeological Projects</a>
<b>21. Inclusive Design Statement</b>	All development (excluding householders).	<ul style="list-style-type: none"> <li>Should be proportionate to the scale and type of development and included within the Design and Access Statement or as a standalone document. Paragraph 3.53 of the London Plan (2021) sets out expected content. It must explain how the design approach reflects best practice, referencing building regulations, planning policies, and the Equalities Act. For new residential schemes, plans and accommodation schedules should identify the number and location of units meeting policy and Building Regulations (e.g., <a href="#">M4(2)/M4(3)</a>).</li> </ul>	Local Plan Policy 13, Policy 51  <a href="#">Residential Development Standards SPD</a>
<b>22. Advertisements Plans and Drawings</b>	Advertisement consent applications.	<ul style="list-style-type: none"> <li>Scaled plans showing the site location and proposed advertisement position must be provided. Photomontages with clearly annotated dimensions are also helpful to support the application.</li> <li>Lighting details must include levels, type, and location of fixtures (e.g. spotlights, strip lighting), with cross-sections showing positioning, materials, and beam orientation where illumination is proposed (see also <a href="#">Lighting Assessment</a>).</li> </ul>	Local Plan Policy 28
<b>23. Transport Statement / Transport Assessment</b>	See <a href="#">Appendix 2</a> to establish whether a <b>Transport Statement</b> , <b>Transport Assessment</b> , or coverage within the <b>Design &amp; Access Statement</b> is required, depending on the proposed use and scale of development.	<ul style="list-style-type: none"> <li>For smaller developments (see <a href="#">Appendix 2</a>) that are required to assess transport impacts within their <b>Design and Access Statement</b>, minimum requirements are set out in paragraph 23.19 (under Policy 47) of the Local Plan (2025).</li> <li>For larger developments, applicants are strongly encouraged to agree the scope of <b>Transport Statements</b> or <b>Transport Assessments</b> at the pre-application stage.</li> <li>For major developments, and in line with TfL's Healthy Streets Approach and <a href="#">guidance</a>, transport statements/assessments should include an Active Travel Zone (ATZ) Assessment.</li> </ul>	Local Plan Policy 47  <a href="#">HPNP Policy T1</a>  <a href="#">Transport SPD</a>  <a href="#">TfL (Guidance for applicants)</a>  <a href="#">Planning Practice</a>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>24. Travel Plan</b>	See <a href="#">Appendix 2</a> to establish whether a <b>Travel Plan Statement</b> or <b>Full Travel Plan</b> is required, depending on the proposed use and scale of development.	<ul style="list-style-type: none"> <li>Should outline measures to promote sustainable travel and reduce private car use, set mode share targets, detail implementation and monitoring arrangements, and identify a coordinator or group responsible for delivery and oversight. Travel Plans should be proportionate to the scale, nature, and impact of the proposed development, and may be submitted in the form of: <ol style="list-style-type: none"> <li><b>Travel Plan Statement</b> (see thresholds at <a href="#">Appendix 2</a>): a simple form of Travel Plan suitable for smaller developments.</li> <li><b>Full Travel Plan</b> (see thresholds at <a href="#">Appendix 2</a>): a comprehensive document required for larger or more impactful developments, setting out detailed measures, targets, and monitoring arrangements to support sustainable travel.</li> </ol> </li> <li>At the planning submission stage, and subject to agreement with the Council, a Travel Plan may include interim content (such as where the end occupier is unknown) with the expectation that it will be updated at a later stage via planning conditions and/or Section 106 obligations. In such cases, a <b>Framework</b> or <b>draft Travel Plan</b> may be appropriate, particularly for larger mixed-use developments or outline applications where specific uses are not yet defined. Framework Travel Plans are typically suitable for phased developments, with future occupiers expected to submit a Full Travel Plan, as appropriate, in accordance with the overarching Framework Travel Plan for the site.</li> <li>School developments are expected to use TfL's <a href="#">Travel for Life</a> platform to create their School Travel Plans.</li> </ul>	<a href="#">Guidance</a> Local Plan Policy 47  <a href="#">HPNP Policy T1</a>  <a href="#">Transport SPD</a>  <a href="#">TfL (Travel Plans)</a>  <a href="#">PPG - Travel Plans, Transport Assessments and Statements</a>
<b>25. Parking Survey</b>	All development likely to lead to a reduction in on-street parking capacity.	<ul style="list-style-type: none"> <li>Local street parking surveys may be required to demonstrate the capacity of the highway to accommodate additional parking demand. Development, particularly larger development, is commonly excluded from eligibility for existing/future street parking permits. If the applicant will not or cannot enter into an agreement to exclude occupants of the development from a Controlled Parking Zone, a parking stress survey should be submitted to justify why the development is acceptable.</li> <li>Developers should contact the Council's transport planners at an early stage to discuss parking requirements (<a href="mailto:transportation@richmond.gov.uk">transportation@richmond.gov.uk</a>).</li> </ul>	Local Plan Policy 48  <a href="#">Transport SPD</a>
<b>26. Parking Layouts &amp; Turning Circles</b> 	All schemes incorporating new on-site parking provision or amended on-site parking layout.	<ul style="list-style-type: none"> <li>Plans should include details of any existing / proposed access and a proposed parking layout.</li> </ul>	Local Plan Policy 48  <a href="#">Transport SPD</a>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>27. Outline Construction Management Plan (CMP)</b> 	<ol style="list-style-type: none"> <li>1. All major development.</li> <li>2. Any basement and subterranean developments (including householders).</li> <li>3. Developments of sites in confined locations or near sensitive receptors.</li> <li>4. If substantial demolition/excavation works are proposed.</li> <li>5. Any development that may involve significant impact to the highway, neighbours, or the wider highway network.</li> </ol>	<ul style="list-style-type: none"> <li>• Applicants must complete and submit a Construction Management Plan in accordance with the Council's guidance and using the Council's latest pro-forma CMP template available via the Council's <a href="#">SPDs and guidance webpage</a>.</li> <li>• The CMP should include a Mitigation Measures Statement setting out how dust, noise, and vibration will be monitored, and where necessary, take appropriate action if issues arise.</li> <li>• In addition, CMPs will need to demonstrate how they meet the conditions and adhere to the Environment Agency's regulatory position statements on dewatering where applicable.</li> </ul>	<p>Local Plan Policy 48, Policy 53, Policy 54</p> <p><a href="#">Transport SPD</a></p> <p><a href="#">Construction Management Plan – guidance and template</a></p> <p><a href="#">Good Practice Guide on Basement Development</a></p>
<b>28. Outline Construction Logistics Plan (CLP)</b>	<ul style="list-style-type: none"> <li>• All major development.</li> </ul>	<ul style="list-style-type: none"> <li>• A CLP will need to be completed in accordance with TfL guidance. A CLP differs from a CMP in that CLPs are developed earlier in the planning process and focus specifically on logistics, such as construction supply chains and measures to minimise their impact on the road network.</li> <li>• An Outline CLP should be submitted to provide the Council with an overview of expected logistics activity during the construction programme. A Detailed CLP is submitted at the post-permission stage, typically to discharge conditions, and sets out the full details of the logistics activity to be undertaken during construction.</li> </ul>	<p>Local Plan Policy 48</p> <p><a href="#">LBRuT Transport SPD</a></p> <p><a href="#">TfL Construction Logistics Plans guidance</a></p>
<b>29. Draft Delivery and Servicing Plan (DSP)</b>	<ol style="list-style-type: none"> <li>1. All major development.</li> <li>2. Any application likely to result in a high number of deliveries or servicing movements (including applications for food and drink uses where home delivery is proposed).</li> </ol>	<ul style="list-style-type: none"> <li>• The DSP should be written in accordance with the latest <a href="#">TfL DSP guidance</a>.</li> <li>• The need for, and scope of, a DSP is typically determined through pre-application discussions. In some cases, a DSP may be submitted in draft form at the planning application stage, with a final version secured via planning conditions and/or a Section 106 agreement.</li> </ul>	<p>Local Plan Policy 19, Policy 48</p> <p><a href="#">Transport SPD</a></p> <p><a href="#">TfL DSP Guidance</a></p>
<b>30. Outline Construction Environment</b>	<ol style="list-style-type: none"> <li>1. All major development.</li> <li>2. Any other development with the potential to lead</li> </ol>	<ul style="list-style-type: none"> <li>• An outline CEMP should be submitted at the planning application stage to establish a framework for identifying and considering potential measures to avoid, minimise,</li> </ul>	<p>Local Plan Policy 7, Policy 42, Policy 39</p>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>Management Plan (CEMP)</b>	to adverse environmental effects. Any development proposing to use the river to transport construction materials and waste.	or mitigate impacts on the environment during the construction phase. This will inform the development of a detailed CEMP which will be secured via planning condition and/or Section 106 agreement. The CEMP should be proportionate and tailored to the specific needs of a development and should include specific biodiversity measures prepared by a competent person (a specific Construction <u>Ecological</u> Management Plan may be appropriate in some cases).	
<b>31. Outline Site Waste Management Plan (SWMP)</b> (for construction, excavation and demolition waste)	1. All major developments and engineering works. 2. Other developments that are likely to generate large amounts of waste during demolition and/or construction.	<ul style="list-style-type: none"> <li>The SWMP must detail arrangements for handling excavation, demolition, and construction waste, and aim to maximise recovery and reuse of materials. An outline SWMP may be submitted at application stage, with a detailed version secured via condition and/or Section 106 agreement. Where appropriate, the SWMP could form part of the Construction Management Plan.</li> </ul>	Local Plan Policy 7  <a href="#">West London Waste Plan</a>
<b>32. Fire Safety Strategy or Reasonable Exception Statement</b> 	All development should submit either a Fire Safety Strategy or Reasonable Exception Statement.	<ul style="list-style-type: none"> <li>Guidance on Fire Statements, Planning Fire Safety Strategies (PFFS) and Reasonable Exception Statements, including template forms, is set out in the <a href="#">GLA Fire Safety London Plan Guidance</a>. Appendix I of the LPG sets out planning application types and fire safety information requirements. The author of a PFSS must demonstrate they have suitable fire safety knowledge, understanding and qualifications, commensurate with the size, scope and complexity of the proposed development.</li> <li>Any requirements set out in the <a href="#">GLA London Plan Guidance Sheet on Evacuation Lifts</a> will be incorporated where a lift core is proposed.</li> <li>For <u>householder &amp; non-major developments</u> where no additional dwellings or commercial units are created, no lifts are provided, the external materials are not altered and there are no alterations to the internal or external communal areas that support the evacuation strategy for the property it will generally be appropriate to submit a <b>Reasonable Exception Statement</b>. For these applications, the applicant should confirm that current fire safety measures are appropriate and will not be negatively affected by the development. Where existing fire safety measures will be altered, the applicant should identify any mitigation measures.</li> </ul>	Local Plan Policy 44, Policy 45  <a href="#">London Plan</a> (2021) Policy D12 (A) and D5 (B5)  <a href="#">GLA Fire Safety LPG</a> (including standard template forms)
<b>33. Fire Statement</b> (which includes a Fire Safety Strategy)	All major development.	<ul style="list-style-type: none"> <li>All major development proposals must be submitted with a Fire Statement, which is an independent fire strategy, produced by a third party suitably qualified assessor.</li> <li>Application Guidance on Fire Statements, Planning Fire Safety Statements and Reasonable Exception Statements is set out in the <a href="#">GLA Fire Safety London Plan</a></li> </ul>	Local Plan Policy 44, Policy 45  <a href="#">London Plan</a> (2021) Policy D12 (B) and

The AMS should be developed in conjunction with the Construction Management Plan (or equivalent).</li> </ul>	
<b>65. Biodiversity Net Gain (Local Requirements)</b>	All applications subject to mandatory BNG requirements (see <i>National Requirements</i> ).	<ul style="list-style-type: none"> <li>• In addition to the statutory minimum set out in the <i>National Requirements</i>, it is <b><u>strongly recommended</u></b> (especially for major development) that the following additional information is provided at the point of submission: <ol style="list-style-type: none"> <li>1. <b>Draft Biodiversity Gain Plan</b> setting out the proposed BNG strategy, to ensure the required information has been considered at an early stage and to minimise potential delays with discharging the general biodiversity gain plan pre-commencement condition, including: <ul style="list-style-type: none"> <li>- A statement describing how the 10% BNG minimum will be achieved;</li> <li>- An indication of how BNG will be delivered (on-site, off-site or both);</li> <li>- For off-site BNG, a statement on intended location, area and habitat type where known;</li> <li>- A statement on how the BNG Hierarchy has been considered.</li> </ul> </li> <li>2. <b>Completed draft Statutory Metric for the proposed scheme</b></li> <li>3. <b>Completed post-development habitat map / landscape plan</b> (to scale)</li> </ol> </li> <li>• For development proposals involving <b><u>significant on-site enhancements</u></b>, a <b>draft Habitat Management and Monitoring Plan</b> is <b><u>recommended</u></b> to allow for the early consideration of proposals for long term maintenance of habitats to be secured through planning condition or S106 obligations.</li> </ul>	<p>Local Plan Policy 39</p> <p><a href="#">Government Guidance: BNG</a></p> <p><a href="#">National guidance: Statutory biodiversity metric tools and guides</a></p> <p><a href="#">Biodiversity Gain Plan – national template</a></p> <p><a href="#">Government Guidance: Habitat Management and Monitoring Plan</a></p>
<b>66. Ecological Enhancement Statement</b>	<p>All development* that is <b><u>exempt</u></b> from Biodiversity Net Gain and/or development that does <b><u>not</u></b> require a Preliminary Ecological Appraisal.</p> <p><i>*A statement is not required for householder applications; however, such proposals are still</i></p>	<ul style="list-style-type: none"> <li>• <b>Note:</b> the statement is only required for developments exempt from Biodiversity Net Gain (BNG) and/or not required to undertake a Preliminary Ecological Appraisal (PEA), as ecological enhancement will otherwise be addressed through other validation requirements.</li> <li>• All developments must comply with Local Plan Policy 39. The statement should outline measures to protect and enhance biodiversity and geodiversity, including ecological connectivity through habitat corridors and stepping-stone sites. Enhancements must reflect site conditions and local priorities, such as those in the</li> </ul>	<p>Local Plan Policy 34, Policy 39</p> <p>Biodiversity SPD (forthcoming)</p> <p><a href="#">LBRuT Biodiversity Action Plan</a></p>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
	<i>expected to deliver ecological enhancements where feasible.</i>	<a href="#">Richmond Biodiversity Action Plan</a> . The statement (proportionate to the scale of development) should clearly summarise proposed actions like habitat creation, native planting, and wildlife features, including implementation and maintenance details. While not requiring a qualified ecologist, it should be prepared by someone competent in ecological principles to ensure appropriate and effective measures are being proposed.	
<b>67. Ecological Reports &amp; Surveys</b> 	<ol style="list-style-type: none"> <li>1. All development* within or adjacent to designated (statutory and non-statutory) or non-designated nature conservation sites.</li> <li>2. All developments* where priority habitats are present and/or protected species are likely to be on or adjacent to the site.</li> </ol> <p><i>*including householder applications, depending on the extent of the proposal and ecological constraints</i></p> <p><i>Full details of designated nature conservation designations are set out in the Biodiversity SPD.</i></p>	<ul style="list-style-type: none"> <li>• A Preliminary Ecological Appraisal (PEA) (usually comprising a desk study and walkover survey) should be undertaken to identify the likely ecological constraints associated with a project, any mitigation measures or additional surveys that may be required, and opportunities for delivering ecological enhancement. PEAs are often conducted alongside a Preliminary Roost Assessment (PRA), or a PRA alone may be appropriate where impacts are likely to affect <u>only</u> bats and/or breeding birds.</li> <li>• The results of a PEA should be presented in either a <b>PEAR and/or EclA</b>:</li> </ul> <p><b>Preliminary Ecological Appraisal Report (PEAR)</b></p> <ul style="list-style-type: none"> <li>• Where additional surveys beyond the PEA are <u>not</u> required, the PEAR will be sufficient for validation. It should identify designated (or non-designated) conservation sites potentially affected, maps habitat types, assesses habitat value and the presence of protected and priority species to determine ecological constraints, lists further required surveys, and highlights opportunities for ecological enhancement.</li> <li>• For <u>major</u> development, where an <b>Ecological Constraints and Opportunities Plan (ECOP)</b> has been produced at an earlier stage, this is encouraged to be submitted demonstrating what and where the key biodiversity constraints and opportunities are associated with the proposal.</li> <li>• <b>Note:</b> It is not always necessary to produce a PEAR following a PEA, as the data could be written up directly in an EclA Report instead (see below), but where one has been produced the Council requests its submission.</li> </ul> <p><b>Ecological Impact Assessment (EclA)</b></p> <ul style="list-style-type: none"> <li>• Where additional surveys beyond the PEA <u>are</u> required, an EclA must be submitted. It should outline the ecological baseline, evaluation criteria, and assess impact significance. The report must justify methods, identify impacts, and detail mitigation, compensation, and enhancement measures. It should also cover legal and</li> </ul>	<p>Local Plan Policy 34, Policy 39</p> <p><a href="#">HPNP Policy G2</a></p> <p>Biodiversity SPD (forthcoming)</p> <p><a href="#">CIEEM Guidelines: Preliminary Ecological Appraisal</a></p> <p><a href="#">CIEEM Guidelines: Ecological Impact Assessment</a></p> <p><a href="#">CIEEM Guidelines: Ecological Report Writing</a></p> <p><a href="#">British Standard BS 42020:2013</a></p> <p><a href="#">LBRuT Biodiversity Action Plan</a></p>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
		<p>policy context, limitations, and any analytical techniques used.</p> <ul style="list-style-type: none"> <li>The EclA should outline monitoring to ensure planning conditions will be implemented effectively, assess predicted versus actual impacts, and address any unforeseen negative effects or ineffective mitigation, compensation, or enhancement measures.</li> <li>For applications below the validation threshold, additional information may be requested during the determination period if it appears that protected species are likely to be present and affected, particularly those identified in the <a href="#">Richmond Biodiversity Action Plan</a>.</li> <li><b>Note:</b> any information relating to badgers <u>must</u> be submitted as a separate document, as this information is legally required to remain confidential.</li> </ul>	
<b>68. Green Roof/Walls Details</b> 	Developments where green roofs/walls are proposed.	<ul style="list-style-type: none"> <li>Biodiverse green roofs are the Council's preferred option for addressing the climate emergency and enhancing biodiversity.</li> <li>Scaled plans must show               <ol style="list-style-type: none"> <li>A scaled section through the actual roof (i.e. not a generic section of a green roof) showing the details of the extensive substrate base and green roof components.</li> <li>At least 70% of the roof plate area as biodiverse green roof or provide robust justification where there is a shortfall.</li> <li>Minimum substrate depths (as set out in the Biodiversity SPD).</li> <li>Design integration with rooftop plant and any photovoltaics and fixings.</li> <li>Plug planting, seed composition, and planting methodology.</li> </ol> </li> <li>Specifications should be supported by a statement outlining management, maintenance, and monitoring arrangements.</li> </ul>	Local Plan Policy 38  Biodiversity SPD <b>(forthcoming)</b>  <a href="#">The GRO Green Roof Code of Best Practice (2021)</a>
<b>69. Urban Greening Factor (UGF) Assessment</b>	All major developments.  <b>Note:</b> <i>Local Plan Policy 38 C requires all other developments to include urban greening elements (which can be addressed through other validation requirements), although no UGF calculation and assessment has to be submitted.</i>	<ul style="list-style-type: none"> <li>Major developments are required to conduct an UGF Assessment in accordance with the methodology set out in the London Plan, and with reference to the GLA's <a href="#">UGF London Plan Guidance</a> and UGF calculator. Applications must achieve the minimum UGF set out within Local Plan Policy 38.</li> <li>All applicants must provide the following information:               <ol style="list-style-type: none"> <li>Appropriate information which provides sufficient detail on the type(s) of green infrastructure proposed;</li> <li>Justification indicating why the type(s) of green infrastructure have been proposed for the development;</li> <li>The UGF calculation and score; and</li> </ol> </li> </ul>	Local Plan Policy 38  <a href="#">UGF London Plan Guidance</a> (including link to UGF calculator)  Biodiversity SPD <b>(forthcoming)</b>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>70. Open Land Assessment:</b> demonstrating impacts on Green Belt, Metropolitan Open Land, Local Green Space, and Other Open Land of Townscape Importance 	Development proposals affecting designated: <ul style="list-style-type: none"> <li>• Green Belt</li> <li>• Metropolitan Open Land</li> <li>• Local Green Space</li> <li>• Other Open Land of Townscape Importance</li> </ul>	<p>4. Appropriate information on how the urban greening elements will be maintained and managed over the lifetime of the development.</p> <ul style="list-style-type: none"> <li>• The Biodiversity SPD sets out further guidance for UGF submission requirements.</li> <li>• The assessment should include calculations that allow for direct comparison between the footprint, height, floorspace (including volume), and extent of hardstanding of the existing and proposed development, including all buildings, structures, and landscaping.</li> <li>• Applicants are encouraged to submit visualisations showing the proposal in the setting of designated open land so that visual impact on openness can be assessed.</li> <li>• Where relevant, applicants should explain why the development is considered an exception to inappropriateness, with reference to (but not limited to) the exceptions set out in the NPPF.</li> <li>• If providing a case for Very Special Circumstances (VSC), applicants should submit information as to the harm arising from, and the need for, the proposed development along with justification for its location in Green Belt (GB), Metropolitan Open Land (MOL), or Local Green Space (LGS). As these designations are subject to different policy tests, the specific context and relevant planning framework should be addressed.</li> <li>• Additional factors that will be considered include evidence that: <ol style="list-style-type: none"> <li>1. the design of the development has been minimised as far as possible;</li> <li>2. impact on the character of the GB/MOL/LGS has been reduced;</li> <li>3. measures have been taken to reduce the impact on openness;</li> <li>4. any public benefits arising from the proposal have been clearly demonstrated.</li> </ol> </li> <li>• Where applicants consider the proposed development to be located on previously developed land (PDL), as defined in the NPPF, to-scale plans should be submitted showing the proposed development overlaid on the existing site layout, including all buildings, structures, and areas of hard and soft landscaping.</li> </ul>	Local Plan Policy 35, Policy 36  <a href="#">Planning Practice Guidance</a>
<b>71. Lighting Assessment</b> 	<ul style="list-style-type: none"> <li>• Development proposals for floodlighting or other external artificial lighting in connection with publicly accessible development or development which is in the vicinity of:</li> </ul>	<ul style="list-style-type: none"> <li>• A Lighting Assessment must be proportionate to the scale and type of development, outline the lighting strategy, justify external lighting needs, assess impacts on biodiversity, amenity, and local character, and demonstrate that reasonable steps have been taken to minimise harm.</li> <li>• It must include detailed plans and specifications showing light levels, spillage, column heights, type, method and colour of illumination, fitting sizes, spectrum details, and contextualised lux spill maps. The assessment should also include site layout plans</li> </ul>	Local Plan Policy 19, Policy 43  Institution of Lighting Professionals Guidance Notes:

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
	<ol style="list-style-type: none"> <li>1. residential uses; or</li> <li>2. designated heritage assets; or</li> <li>3. designated nature conservation sites;</li> </ol> <ul style="list-style-type: none"> <li>• Required for advertisements where external lighting is proposed.</li> </ul>	with beam orientation, equipment schedules, proposed hours of use, mitigation measures, and evidence of compliance with relevant professional guidance.	<a href="#">The Reduction of Obtrusive Light Bats and Artificial Lighting</a>  <a href="#">Sport England – Artificial Lighting</a>  <b>Biodiversity SPD (forthcoming)</b>
<b>72. Noise Assessment and/or an Acoustic Design Statement</b> 	Development where noise is likely to be a material consideration or have a significant impact, either for Noise Sensitive Development or Noise Generating Development*.	<ul style="list-style-type: none"> <li>• The <a href="#">Development Control for Noise Generating and Noise Sensitive Development SPD</a> sets out further guidance.            *Note on Domestic Air Source Heat Pumps (ASHPs):</li> <li>• For residential ASHP installations (either proposed under Permitted Development, or where planning permission is required), a noise/acoustic assessment will not be required if the installation complies with the <a href="#">Microgeneration Certification Scheme's MCS 020 a</a>) planning standards. In such cases, applicants must submit:               <ol style="list-style-type: none"> <li>1. Manufacturer's specification sheet, and</li> <li>2. Certificate of MCS compliance or installer declaration confirming compliance with MCS 020 a) noise limits and siting criteria.</li> </ol> </li> <li>• For ASHP installations <u>not compliant</u> with MCS 020 a), a full Noise Impact Assessment or Acoustic Design Statement will be required to demonstrate that noise impacts are acceptable and meet relevant planning policy standards.</li> </ul>	Local Plan Policy 19, Policy 53  <a href="#">Development Control for Noise Generating and Noise Sensitive Development SPD</a>
<b>73. Odour Impact Assessment &amp; Scheme</b>	Applications proposing new or altered mechanical extraction systems, flues, or other installations associated with odour-generating uses.	<ul style="list-style-type: none"> <li>• Odour Impact Assessments should be undertaken by a competent and qualified person and demonstrate that the proposed development will not adversely impact the amenity of neighbouring land uses, or any future users of the development. Such assessments may be secured by condition unless the proposal specifically relates to an extraction system or flue.</li> <li>• Where relevant, best practice should be applied, following <a href="#">EMAO+ Guidance (2018)</a> on the control of odour and noise from commercial kitchen exhaust systems.</li> </ul>	Local Plan Policy 19, Policy 53  <a href="#">Air Quality SPD</a>  <a href="#">IAQM Guidance on the assessment of odour for planning</a>

LOCAL REQUIREMENTS	THRESHOLD	WHAT IS REQUIRED	POLICIES & GUIDANCE
<b>74. Air Quality Assessment</b>	<ol style="list-style-type: none"> <li>All major developments.</li> <li>Minor developments within or adjacent to an Air Quality Focus Area, in certain circumstances, (such as introducing sensitive land uses or residential conversions).</li> </ol>	<ul style="list-style-type: none"> <li>The <a href="#">Air Quality SPD</a> (2020) provides guidance on the requirements of air quality assessments. <a href="#">Planning Practice Guidance</a> also provides general advice on the assessment of air quality.</li> <li>It is recommended that developers or their air quality consultants agree with the Council's Air Quality Officer the methodology and data to be used in the AQA prior to commencing the assessment.</li> <li>See the <a href="#">GLA's London Air Quality interactive map</a> to view Air Quality Focus Areas.</li> </ul>	<p>Local Plan Policy 19, Policy 53</p> <p><a href="#">Air Quality PPG</a></p> <p><a href="#">Air Quality SPD</a></p> <p><a href="#">LBRuT Air Pollution webpage</a></p>
<b>75. ### Appendix 3 - Flood Zones, Restrictions, and Requirements

*Reproduced from Table 16.4 at Policy 8 of the Local Plan (2025).*

Flood Zone	Land use and development – restrictions	Sequential Test	Exception Test	Flood Risk Assessment
Zone 3b	<p>The functional floodplain as identified in the Council's Strategic Flood Risk Assessment will be protected by not permitting any form of development on undeveloped sites unless it:</p> <ul style="list-style-type: none"> <li>• is for Water Compatible development;</li> <li>• is for essential utility infrastructure which has to be located in a flood risk area and no alternative locations are available and it can be demonstrated that the development would be safe, without increasing flood risk elsewhere and where possible would reduce flood risk overall.</li> </ul> <p>Redevelopment of existing developed sites will only be supported if there is no additional built development proposed within the undeveloped functional floodplain, no increase in vulnerability and a net flood risk reduction is proposed; any restoration of the functional floodplain will be supported.</p> <p>Proposals for the change of use or conversion to a use with a higher vulnerability classification will not be permitted.</p>	Required for essential utility infrastructure	Required for essential utility infrastructure	Required for all development proposals

Flood Zone	Land use and development – restrictions	Sequential Test	Exception Test	Flood Risk Assessment
Zone 3a and areas at Risk of Flooding from Surface Water in a 1 in 100 year event.	Land uses are restricted to Water Compatible, Less Vulnerable and More Vulnerable development. Highly Vulnerable developments will not be permitted.  Self-contained residential basements and bedrooms at basement level will not be permitted.	Required for all developments unless exceptions outlined in the supporting text to this policy apply	Required for more vulnerable development	Required for all development proposals
Zone 2	No land use restrictions  Self-contained residential basements and bedrooms at basement level will not be permitted.	Required for all developments unless exceptions outlined in the supporting text to this policy apply	Required for highly vulnerable development	Required for all development proposals unless for change of use from water compatible to less vulnerable
Zone 1	No land use restrictions	Not applicable	Not applicable	A Drainage Statement is required for sites all major developments. Required for all other development proposals where there is evidence of a risk from other sources of flooding, including surface water, ground water and sewer flooding
