

# The Social Hub

The Social Hub focuses on creating spaces for socialising, with plenty of seating, canopies and stages. New gathering spots will be added, including:

- The Social Island by the playground.
- Informal seating in the eastern grass area.
- A roofed stage on the Bowling Green.
- Social spaces beside the pavilion.

Internal fences will be removed to improve park flow (except around tennis courts and MUGA). Existing tarmac paths will be removed and replaced with hard packed gravel to give a natural feel in contrast to the tarmac and paving of the surrounding streets.

## New Features:

1. The Quiet Corner
2. Café Area
3. Stage with Canopy
4. Diverse Seating on Grass Area
5. The Social Island
6. New Entrance

## Existing Features:

7. Playground
8. MUGA
9. Tennis Courts
10. Former Bowling Green
11. Ping Pong
12. Grass Lawn

# The Activity Plaza

The Activity Plaza focuses on play and physical activity. This scenario includes:

- An expanded playground with new equipment.
- A wheeled play zone with smooth surface and fun features.
- A dedicated area for older children and teens with parkour and calisthenics equipment.

Internal fences will be removed to improve park flow (except around tennis courts and MUGA). Existing tarmac paths will be removed and replaced with hard packed gravel to give a natural feel in contrast to the tarmac and paving of the surrounding streets.

## New features:

1. Expanded Playground
2. Parkour / Calisthenics
3. Wheeled Play
4. New Entrance

## Existing features:

5. Playground
6. MUGA
7. Tennis Courts
8. Former Bowling Green
9. Pavilion
10. Grass Lawn

# The Nature Connector

The Nature Connector promotes nature experiences and biodiversity, with spaces for play and connection with nature. The focus is transforming a large swath of the park into a lush, playful landscape. Key elements include:

- A nature playground in the park's west area.
- An undulating landscape with different biotopes for kids and insects.
- New social spaces with a focus on greenery and nature experiences.

Internal fences will be removed to improve park flow (except around tennis courts and MUGA). Existing tarmac paths will be removed and replaced with hard packed gravel to give a natural feel in contrast to the tarmac and paving of the surrounding streets.

## New features:

1. The Nature Playground
2. The Green Islands
3. The Green Plaza
4. New Entrance
