

Harroway Gardens Improvements Phase 1 Consultation

Wandsworth Council want to hear your views on Harroway Gardens. £428,115 has been allocated via the S106 scheme to secure enhancements at this site, bringing the council's investment in parks and open spaces in this area to over £700k in recent years. The S106 scheme pays for new and improved community facilities using funding collected from private development projects in the surrounding area.

The aim of this initial consultation is to help us understand what you think of Harroway Gardens, if and how you currently use this green space and how you think it could be improved.

Please note, the entrance to Harroway Gardens by Sesame Apartments is to be temporarily closed during cladding works

As part of a separate project in the local area, essential works will be taking place to the Sesame Apartments building from July 2021 onwards and will temporarily impact one section of the Gardens. Due to the nature of these works, which involves the replacement of the building's cladding, it has not been possible to delay them until the Harroway Gardens Improvements Project is concluded. The works have been planned to minimise disturbance to users of the Gardens, local residents and businesses and has been approved by Wandsworth Council, however, the access point into Harroway Gardens located immediately next to the Sesame Apartments on Yelverton Road will be closed to facilitate the works.

The main access leading to the Gardens further down Yelverton Road will remain open throughout the duration of the works to provide an access point into the Gardens and the playground.

The cladding works are entirely separate from the Harroway Gardens refurbishment plans.

This consultation is funded by Wandsworth Council through the S106 scheme. The S106 pays for new and improved community facilities using funding collected from private development projects in the surrounding area. Wandsworth Council's Harroway Gardens is managed in partnership with Enable Leisure and Culture.
